

City of Simonton

November 4, 2014

City of Simonton Residents:

Recently, the Simonton City Council published a "Request for Proposal" (RFP) for municipal solid waste collection services via our newspaper of record, the Fort Bend Herald. As well, the City reached out to the garbage collection contractors that were known to do business within the City of Simonton to advise them of the RFP process.

At the October 21, 2014 meeting of the Simonton City Council, the City Council selected Texas Pride Disposal Services for solid waste collection services. The contractual details are currently being finalized and a final contract agreement should be presented for approval at the November 18, 2014 City Council Meeting.

Although the starting date for a contract has yet to be determined, this letter is to advise you that the City of Simonton does intend to proceed with managing the municipal solid waste within the City of Simonton at some time after January 1, 2014. The City Council will decide the method of roll out at our upcoming City Council meeting.

We will do our best to advise you as to the exact start date so that you can prepare for an orderly termination of services at the appropriate time. In the meantime, it may be best to transition to month-to-month billing with your current carrier. If you have any questions or concerns please email the City Secretary at cityhall@simontontexas.org.

Respectfully,

A handwritten signature in black ink that reads "Daniel McJunkin".

Mayor Daniel McJunkin
City of Simonton
